Drain Pan

12 in Long · 10.25 in Wide · 3.75 in Deep · Aluminum · Black Powder Coat · Quick Change

PART NUMBER
TIP8520
View on PriceGuidePro ›

OVERVIEW

A drain pan catches oil during changes so it stays out of the trailer floor and off the shop surface. A pan with a perforated shelf lets you drain a filter at the same time. Aluminum construction resists the solvents and oil it holds.

Sized to fit under a quick change without repositioning the car.

Drain pan for quick change gears. 12 Inch long x 10.25 Inch wide x 3.75 Inch deep, aluminum with a black Powdercoat finish. Sold each.
