AN Wrench

Single End · Adjustable · 3 AN to 12 AN · Aluminum · Black Anodized

PART NUMBER
TIP8532
View on PriceGuidePro ›

OVERVIEW

AN wrenches are shaped to grip the flats of an AN fitting without rounding or marring the anodized finish, which matters because those fittings get removed and reinstalled constantly. Using an adjustable wrench on AN hardware is how expensive fittings become scrap. Aluminum construction keeps the tool from biting into softer fitting bodies.

Labeled sizes let a crew grab the right one without guessing in a hurry.

Single-end wrench adjusts from 3 AN to 12 AN. Black anodized aluminum won't mar fittings.

SPECIFICATIONS

Material	**Aluminum**
Finish	**Black Anodized**
Style	**Single End, Adjustable**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**8.45 × 3.95 × 0.8 in**
